

ZETEC, a Roper Industries company, is a leading provider of high-end non-destructive testing (NDT) technologies and instruments. With its innovative solutions integrating computers, electronics, physics and robots, ZETEC contributes to the security, efficiency, and competitiveness of power plants worldwide.

COMPTROLLER

Reporting to the corporate comptroller at the American head office and to the general manager in Québec City, you manage and supervise with your team the various Canadian and European accounting tasks. You are in charge of internal audits, preparation, consolidation and analysis of financial statements, budget forecasting, cost ascertainment, computer network management, taxation, and tax credits. Moreover, you manage the control systems pertaining to *Sarbanes Oxley* and play a key role in implementing a new ERP system. Finally, with the knowledge that you bring to the leadership team, you contribute to the growth and business decisions of the division.

Fluent in English, both spoken and written, you have a recognized accounting title and 7 to 12 years of professional experience, of which a few were as a comptroller in a manufacturing company, ideally in a high-tech field. You are recognized for your technical accounting skills, your ERP management abilities, as well as your leadership, communication and team work skills. Furthermore, you possess excellent analysis and business sense.
