

Zetec is a global leader in nondestructive testing (NDT) solutions for the critical inspection needs of industries the world counts on every day. For over 50 years, the talented people at Zetec have been advancing NDT standards and science that protect some of the world's most important assets.

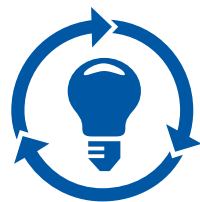

Our customers look to us for fast, cost-efficient inspection solutions that give them new levels of insight and control. Together, our people, customer-centric innovation and state-of-the-art manufacturing facilities make us uniquely agile in meeting our customers' inspection needs. We produce high quality products that are known around the world. We're also able to integrate design and engineering with our manufacturing to deliver breakthroughs in productivity, safety and total cost of ownership.

Zetec is a subsidiary of Roper Technologies, a multi-billion dollar diversified technology company.

Activities

“The people are fantastic. The leadership team is passionate about the success of the company. We’re a global industry leader and the Snoqualmie office is a great place to work with onsite fitness area, game room lounge and more.”

“Interesting technology, technical challenges keep it interesting, great location near the mountains and outside the Seattle traffic corridor, great people to work with...”

glassdoor®
