Re: MIZ-21C Assigned NSN/NNO

Dear Valued Customer,

A National Stock Number (NSN), also known as a NATO Nomenclature Number (NNO), is the official label applied to an item of supply that is repeatedly procured, stocked, stored, issued, and used throughout federal supply systems. It is a unique item identifying series of numbers. When an NSN/NNO is assigned to an item of supply, data is assembled to describe the item. Some data elements include information such as an item name, manufacturer's part number, physical features, and performance characteristics. NSN/NNOs are an essential part of government logistics supply chain used in managing, moving, storing, and disposing of material.

The MIZ-21C has been assigned the following NSN/NNO:

Part Number	Description	NSN/NNO
111A903-00	ZES-HHT-MIZ-21C-ARRAY	6635-01-675-8233
	Standard Eddy Current Array Instrument	
111A906-00	ZES-HHT-MIZ-21C-ARRAY_WIRELESS-LOCKED	6635-01-675-8233
	Standard Eddy Current Array Instrument with Wireless Locked	
111A959-00	ZES-HHT-MIZ-21C-ARRAY-FAF-KIT	6635-01-696-5244
	French Military Eddy Current Array Instrument	
111A960-00	ZES-HHT-MIZ-21C-ARRAY-FAF-WITH-ADAPTERS-KIT	6635-01-696-5104
	French Military Eddy Current Array Instrument with Adapters
